ATTENTION: You have just been granted special access to be a fly on the wall and spy in 10 private conversations with people who have the following in common: 1. Every single person in this book has generated over ONE MILLION DOLLARS in online sales 2. They didn't inherit the money. Instead, each person built an online business from scratch, from humble beginnings, stumbled at several obstacles, but thanks to an overwhelming desire to meet their goals, course-corrected their way to success 3. Whether it was through software, seminars, services, affiliate marketing, or information products -- each person found a way to channel their passion to a side business, remove the 80% that didn't work, and scale up the 20% that remained into a full time income 4. Each person you'll hear from found a way to move outside their comfort zone -- and use tools like paid advertising, public speaking, list building, social media, or joint venture to generate traffic and put that business on autopilot 5. All the interviewees listed here are so enthusiastic about their business that they freely share what's working for them -- there's nothing left out, there are no "half baked" action plans, and there are no "closed door" secrets. It's all laid out in the open for you in this guide and it's up to you to apply them Although you might not be a PHP programmer like Robert Plank, a list builder like Lance Tamashiro, a product creator like Kevin Riley, an internet marketer like Willie Crawford, an affiliate marketer like Jason Parker, a business builder like Stu McLaren, a copywriter like Ryan Healy, a strategist like Ray Edwards, a speaker like David Cavanagh, or a teacher like Armand Morin... you can definitely apply the techniques explained here in your own business and everyday life.

This book is designed for those of you who have never worked in retail before and would like the low down from a seasoned pro about how it all works so that you can convince a future employer that you can make the change from mechanic or nurse or factory worker, or whatever it is you do now, to a valuable employee in their organisation. In this book is a step-by-step guide to the basics of selling that will get you headed in the right direction for making more money. It is also designed for those of you who may like to develop better retail skills to be able to go from department store shop assistant to a more challenging and more profitable role in a commission-related environment such as electrical, mobile phones, furniture or real estate. Commission-based retail jobs can earn you so much more money than regular retail jobs and give you a level of enjoyment that the others just can't. The techniques in this book will take you from being an order-taker to being a top salesperson. It may seem that there is an overwhelming amount of information here and you may think, 'How am I going to do all that in one interaction with a customer?' The answer is that most of this will become automatic after you have been doing it for a while and you won't even know you are doing it. If you start out with the basics before you move onto the advanced techniques you will be just fine. In fact, you will be streets ahead of most of the sales people out there! There may be some of you who are reading this book that have achieved great success in the above fields of retail and just want a refresher; a get back-to-basics type of journey. There will be many things in here that you already know and hopefully there will also be some you don't, or possibly some things you used to do but have forgotten about. The section on Advanced Selling Techniques will give you hints and tips on how to hone your already considerable skills and increase your income. You want to maximise what you are earning by continuing to increase your skill level. This level is by no means exhaustible, you can get better and better every day and earn more and more money. The difference between this book and all the others out there is that this book is also about creation. Creating something in your life, your customers' lives and in the culture of the company you work for. It's about you being more than an instrument. It's about you being able to create fulfillment and joy through your job in retail. It's about inspiring those around you and being the best you can be. We have a unique opportunity in retail. We come into contact with hundreds of people every week. If you worked in an office or factory, you would probably only see the same people week in and week out, so being exposed to the public every day is your opportunity to make a difference in people's lives. Large or small differences, it doesn't matter which, the point is to not waste your chance to create a new way of interacting that enhances all our experiences on this planet in our life time. This is the secret to making more money in your job in retail. It's all about what you give to your customer and not what you will get from them. All the great money gurus in the world talk about contribution. What are you contributing to society? How are you enriching their lives?

Secrets of the Millionaire Mind reveals the missing link between wanting success and achieving it! Have you ever wondered why some people seem to get rich easily, while others are destined for a life of financial struggle? Is the difference found in their education,

intelligence, skills, timing, work habits, contacts, luck, or their choice of jobs, businesses, or investments? The shocking answer is: None of the above! In his groundbreaking *Secrets of the Millionaire Mind*, T. Harv Eker states: "Give me five minutes, and I can predict your financial future for the rest of your life!" Eker does this by identifying your "money and success blueprint." We all have a personal money blueprint ingrained in our subconscious minds, and it is this blueprint, more than anything, that will determine our financial lives. You can know everything about marketing, sales, negotiations, stocks, real estate, and the world of finance, but if your money blueprint is not set for a high level of success, you will never have a lot of money—and if somehow you do, you will most likely lose it! The good news is that now you can actually reset your money blueprint to create natural and automatic success. *Secrets of the Millionaire Mind* is two books in one. Part I explains how your money blueprint works. Through Eker's rare combination of street smarts, humor, and heart, you will learn how your childhood influences have shaped your financial destiny. You will also learn how to identify your own money blueprint and "revise" it to not only create success but, more important, to keep and continually grow it. In Part II you will be introduced to seventeen "Wealth Files," which describe exactly how rich people think and act differently than most poor and middle-class people. Each Wealth File includes action steps for you to practice in the real world in order to dramatically increase your income and accumulate wealth. If you are not doing as well financially as you would like, you will have to change your money blueprint. Unfortunately your current money blueprint will tend to stay with you for the rest of your life, unless you identify and revise it, and that's exactly what you will do with the help of this extraordinary book. According to T. Harv Eker, it's simple. If you think like rich people think and do what rich people do, chances are you'll get rich too!

Read the series that's sold more than 2 million copies--if you dare! Warning: this description has not been authorized by Pseudonymous Bosch. As much as he'd love to sing the praises of his book (he is very vain), he wouldn't want you to hear about his brave 11-year old heroes, Cass and Max-Ernest. Or about how a mysterious box of vials, the *Symphony of Smells*, sends them on the trail of a magician who has vanished under strange (and stinky) circumstances. And he certainly wouldn't want you to know about the hair-raising adventures that follow and the nefarious villains they face. You see, not only is the name of this book secret, the story inside is, too. For it concerns a secret. A Big Secret.

According to the Department of Labor, the average woman in 1998 was bringing home less than \$25,000 a year. For every dollar that a man makes, a woman makes between 50 and 75 cents, and that is hardly news. But what you may not know is that, quietly and steadily, the number of women making six figures or more is rapidly increasing. Currently, over fifteen million women make \$100,000 or more, and the number continues to rise at a rate faster than for men. And these women come from every industry - psychologists, dot com founders, consultants, freelance writers, and even part-timers. What makes these particular women able to do so well in the workplace? Fueled by curiosity, Barbara Stanny, author of *Price Charming Isn't Coming: How Women Get Smart About Money* (Viking Penguin), set out to research this phenomenon. What she discovered was that, though the high-earning women she interviewed came from different backgrounds and had had greatly different work experiences, they all had certain characteristics in common. *Secrets of Six Figure Woman:*

Vivia is a hag, one of the last of her race, and can die, visit the underworld and return at will. She has a job she loves-helping London's most vulnerable supernaturals, even if her colleague Malcolm drives her round the bend on a daily basis. Then Malcolm is outed as a zombie and, along with his teenage son Ben, flees the police. When Malcolm is captured, he is only able to pass on one message before his dead brain degrades completely: 'He killed me.'
