How Animals Grieve: King, Barbara J: Amazon.com.au: Books

Through science as well as numerous stories such as the ones above, Barbara J. King—a professor of anthropology at the College of William and Mary and a commentator on NPR's science blog, 13.7—makes a compelling case for the rich and deep emotional lives of other animals in her new book, How Animals Grieve. As animal people, we've all heard stories of elephants carefully caressing the bones of their dead loves ones or of mother apes carrying the bodies of dead infants (sometimes long ...

How Do Animals Grieve? | PETA

How Animals Grieve. From the time of our earliest childhood encounters with animals, we casually ascribe familiar emotions to them. But scientists have long cautioned against such anthropomorphizing, arguing that it limits our ability to truly comprehend the lives of other creatures. Recently, however, things have begun to shift in the other direction, and anthropologist Barbara J. King is at the forefront of that movement, arguing strenuously that we can—and should—attend to animal ...
