Kevin Harrington, one of the original "sharks" of the TV hit Shark Tank, and serial entrepreneur Mark Timm take you on a journey that radically redefines what it means to truly succeed--at work, at home, and in every area of life. On one of the best days of his life as an entrepreneur, Mark Timm found himself sitting in his car at the end of his driveway. In just a minute he would go into the house and greet his wife and children. But as he basked in the success he'd just had, he also had to face a surprising realization: he didn't really want to go home. Mark knew that once he stepped into the happy chaos of his family, the euphoria of the day would evaporate. His work life and his home life might as well have been two different worlds. And at that moment, he acknowledged--as he puts it--that "my businesses were getting my first and my best, while my family got my last and my least." Mentor to Millions charts Mark's journey from that pivotal moment to a whole new understanding of how work, life, and relationships can coexist and thrive together. His guide through this journey: his accomplished mentor, Kevin Harrington, one of the original "sharks" from Shark Tank, who shares amazing stories and imparts invaluable wisdom about how to win in business and in every area of life. This deeply personal, easy-to-follow book invites you to join Mark and Kevin on the journey. Every page pulls back the curtain on entrepreneurship at the highest level, revealing priceless business lessons--which lead to the biggest lesson of all: combining the best of business, family, and personal life. If you're succeeding in business, struggling, or just starting out, and want your life at home to be what you've always dreamed it can be, this is the lesson you need to learn: the most valuable business you'll ever own, work for, or be a part of isn't the business you go to every day, it's the one you go home to.

Ex-NFL player, gentleman scholar, and Fox Sports personality Marcellus Wiley sucks you into a world of inner-city violence, Ivy League intrigue, and pro-football escapades that's one part touching, one part hilarious, and all parts impossible to put down. Marcellus Wiley has never had a problem expressing his opinion, whether it was growing up in Compton with a football tucked under his arm, or going to college at Columbia University, where he learned to survive Advanced Calculus and self-important pseudo-intellectuals. Or making it to the NFL against all odds, where he put together a ten-year career of massive paydays, massive painkillers, and massive sacks of everyone from Steve Young to Peyton Manning. Now, in Never Shut Up, Fox Sports' hottest rising persona doesn't hold back as he goes off on everything that's controversial with the game today, from concussions to political protests to inherent violence that's worse than the hood he grew up in. Not because he hates football, but because he wants to save it. Marcellus has never held back, even when a lot of people wanted him to. Now, he's letting it all hang out--right there on each page. Way more than just another book about the latest NFL scandals, this warm, moving, and genuinely funny story of awkward transitions, family loyalty, fame, fortune, and failure will make you fall in love with Marcellus--and football--all over again. In Never Shut Up, Marcellus will take you on a truly unique journey from Crenshaw to Broadway to the Buffalo Bills and back again, sometimes making you laugh, sometimes making you cry, but always leaving you entertained.

A Financial Times Book of the Month: "An enchanting book about how to question the conventional, challenge the status quo, and unlock the creative solutions right under your nose." --Adam Grant, New York Times bestselling author of Originals, Give and Take, and Option B with Sheryl Sandberg "Unsafe Thinking delivers an array of fresh insights on creativity, motivation, and staying in 'flow.' Packed with powerful case studies, it will propel you out of your rut and onto a path of better, sharper thinking." -- Daniel H. Pink, author of When and To Sell Is Human How can you challenge and change yourself when you need it most? We're creatures of habit, programmed by evolution to favor the safe and familiar, especially when the stakes are high. This bias no longer serves us in a world of constant change. In fact, today, safe thinking has become extremely dangerous. Through stories of trailblazers in business, health, education and activism, and leveraging decades of research into creativity and performance, Jonah Sachs reveals a path to higher performance and creativity for anyone ready to step out of their comfort zone. He introduces troublemakers willing to challenge corporate culture like the executive who convinced CVS to drop its multibillion-dollar tobacco business. She now leads the pharmacy giant. Readers will get firsthand accounts of breaking from the status quo from a Nobel prize winning doctor who nearly got himself thrown out of medicine, a two-time NBA championship coach who brought joy back to his team by tuning down the focus on competition, a CEO who rebuilt her reputation and life from the ashes from one of the biggest flops in internet history and a Colombian mayor who started an incredibly successful career of political reform by mooning an angry crowd. Unsafe Thinking is full of counter-intuitive insights that will challenge you to rethink how you work. You'll learn: Why your area of deep expertise is often where you'll find your biggest blind spots Why anxiety can be fuel for success When to trust intuition and when to challenge it How collaborating only with those that share your values stunts your creativity How to build an organization that embraces intelligent risk. An inspiring and accessible read, Unsafe Thinking has the power to change both the way you approach your work and your life.

Dear Friends. Pay attention, please. I have no z-e-r-o doubt that The Regenerative Life will be a solid-gold winner. --Tom Peters The world often falls short of how we'd like it to be, and our ability to make even just a little difference can seem limited. Sometimes it feels like you need to be a super-hero to achieve anything meaningful. But what if by re-conceiving what you do, you could change the world for the better? In THE REGENERATIVE LIFE, Carol Sanford shows you how to fundamentally change the roles you play in society, enabling you to do more than you ever believed possible; grow yourself and others, provide astounding innovations for your clients, children and students, generate extraordinary social returns, become more creative, and bring new life and opportunity to everything around you. THE REGENERATIVE LIFE teaches you to see your roles differently: stripping away all preconceptions of how it should be done, understanding what your role is at its core, and building yourself back up to become something new; something so grounded, inspiring, and resilient, it can change the world.

Forewords by: Cheryl Y. Kiser, Babson College & Michiel Bakker, Google Courageous leaders today are calling for a disruptive yet effective way of working: one that unlocks significant new levels of innovation, delivers enduring financial results, and creates exceptional customer loyalty while simultaneously building human capacity to contribute to on-going positive change. The good news is there is a proven, but infrequently taken, path. Through a fundamentally contrasting paradigm, Carol Sanford shows leaders why today's so-called business "best practices" undermine success--and then, how to transform their business into something so flexible, so innovative, so developmental, it becomes virtually non-displaceable in the market. The Regenerative Business is built by connecting every person in the business to the "essential core" of that business - its unique foundation for innovation and market power. This provides the fulcrum for an organizational culture that embraces the internal destabilization and discomfort that comes with responding creatively to the unfamiliar. The payoff for doing so is a motivated and innovative workforce that is prepared to take a business to the top of its industry - and stay there. Carol's work focuses on what fundamentally fuels the organization: the capacity and capabilities of the people within it and the design of work to empower them. She defines these for readers and shows that when these are internally developed, you change who people are and what they are able to take on, which she calls "promises beyond able-ness." She shows through many cases drawn from her work that by implement this all-encompassing way of working, businesses are able to have a positive impact beyond the bottom line, to the broader marketplace and the communities in which they operate.
