Mullenix's Mass Tort Litigation: Cases and Materials reflects two concepts: First, that the seminal, core cases and materials relating to mass tort litigation still remain viable precedents after 25 years. Second, that courts are still struggling to find solutions to the resolution of this complex litigation. In addition to the seminal cases relating to Agent Orange, Dalkon Shield, DES, and asbestos litigation, the casebook is updated with materials relating to breast implants, tobacco, medical devices, and pharmaceutical litigation. The updated casebook is suitable for advanced courses in tort litigation, complex procedure, class action litigation, and dispute resolution offerings.
